THE SAFEST PERIMETER NET ON THE MARKET

- ✓ Frictape Perimeter Nets are the safest on the market: they do not have weak points. Our nets have a safe and effective hammock effect that absorbs the kinetic energy of falling objects or persons without fear of rebound.
- ✓ The benefits of balanced strength and fail-safe structure of Frictape Perimeter Net come into effect even when the net is damaged: even several cuts will not affect its ability to safely stop and contain a falling person.
- ✓ As a proof of their superior safety & reliability, our Perimeter Nets have been installed on over 1500 helidecks worldwide.

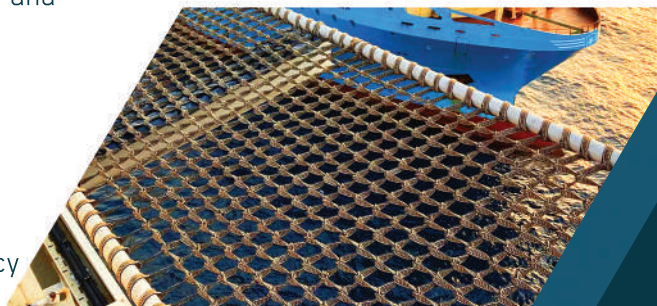

CONVENIENCE AND SAFETY OVER EXTENDED LIFETIME

- ✓ **DURABLE MATERIAL FOR EXTREME CONDITIONS**
The material used in our Perimeter Nets is a unique blend of special fibers, developed by Frictape. The material effectively resists UV radiation, heat, moisture, AFFF and guano. This results in an extremely durable net that has a market-leading lifetime expectancy of up to 10 years, which is significantly longer and also safer – than traditional solutions.
- ✓ **UNIQUE & INTEGRATED TESTING SOLUTION**
For superior reliability and ability to plan ahead, Frictape Perimeter Nets come with a unique, integrated testing solution that delivers accurate and cost-effective safety verification. The testing provides clear insight into net condition, enabling proactive maintenance planning & making sure it can be executed effectively and safely.
- ✓ **SMART & EASY - TO - HANDLE PACKAGING**
For easy transportation, Frictape Perimeter Net packaging is designed to fit through standard vessel doors and to be carried in stairs. Every net is individually packed and numbered for optimized efficiency in installation & possible future repairs.

CERTIFIED AND TESTED QUALITY

- ✓ **ABS & DNV CERTIFIED PERIMETER NET**
Frictape Perimeter Nets are the most tested helideck perimeter net technology in the world, in both laboratory & in real - life dynamic testing. As a proof of the safety & compliance to standards, our nets hold both ABS & DNV type approval certificates that make our nets one of a kind in the offshore world.
- ✓ **FULLY COMPLIANCE & DURABLE PERFORMANCE**
Our Perimeter Nets fully comply with e.g. CAP 437, UK, Malaysian, Brazilian and Norwegian regulations. Based on years of extensive real life data, the strength of our nets exceeds CAP 437 requirements with a good margin up to the end of their estimated lifetime of 10 years.

AMONG OTHERS FOLLOWING TESTS HAVE BEEN CONDUCTED

- ✓ Hundreds of pull through tests
- ✓ Hundreds of drop tests
- ✓ Failsafe tests
- ✓ Flammability tests
- ✓ Abrasion tests
- ✓ Aging test starting from mid-80's
- ✓ AFFF-foam resistance test
- ✓ Thousands of tensile tests

LOWEST LIFETIME COSTS, UP TO 80% SAVINGS

- ✓ **Reliable long-term value**
Easy installation, up to 10-year certified lifetime, zero maintenance and advanced testing leads to significant savings with predictable investment costs and minimum downtime.
- ✓ **Low repair & replacement costs**
A standardized, fail-safe design allows simple visual inspections and annual testing. Individually numbered panels enable quick, accurate replacement when external damage occurs.
- ✓ **Lowest total cost of ownership**
Combined with easy handling, storage and transportation - delivers a proven lowest total cost of ownership in any operations.
- ✓ **Trusted by leading global operators:**

EFFORTLESS AND FAIL-SAFE INSTALLATION

- ✓ **Effortless, tool-free installation**
Our perimeter safety nets are designed for quick setup using a standardized & reliable process that ensures full safety for both the crew & installation process.
- ✓ **Custom-made fit**
All our nets and attachment points are tailored to each helideck, accommodating obstacles and minor measurement variations without extra hardware, fixing parts and elements.
- ✓ **Short installation timeframe**
Most installations take only a few days and can be performed by either our installation team or your own.
- ✓ **Clear & Organized delivery**
Each net is individually numbered and packed, accompanied by a helideck layout and clear installation instructions.

FRICTAPE INSTALLATION SERVICE FOR MAXIMIZED EFFICIENCY

70% of customers choose our professional installation service for superior safety, speed, quality & cost efficiency:

- ✓ **Extended 5-year warranty** when installation is performed by Frictape.
- ✓ **Certified professionals:** All technicians are IRATA certified rope access experts with extensive experience in working at high altitudes and in extreme offshore conditions.
- ✓ **Specialized training:** Technicians are trained to understand the unique materials and functionality of Frictape products, ensuring every installation meets the highest standards of safety, durability, and precision.
- ✓ **Global availability:** Our team is available worldwide to complete installations quickly and efficiently.
- ✓ **Flexible services:** Depending on the project scope and schedule, technicians can work individually to train your crew or in small teams (2-3 professionals) to manage the full installation process.

FRICTAPE ADVANCED TESTING METHODOLOGY

Our testing service is a unique, cost efficient and scientifically accurate way to carry out required annual strength testing.

- Test strips integrated to panels are removed and sent to our accredited laboratories for testing.
- An official report on nets' actual condition, historical aging and estimated lifetime remaining will be sent electronically to you.

Accurate, future proof testing data allows you to plan and budget ahead renewals for maximized operational and cost efficiency.

FRICTAPE

FRICTAPE is the world's largest manufacturer of helideck nets. For over 40 years, our focus on high performance aviation safety solutions has resulted in industry-leading safety nets that ensure smooth, safe and cost-effective operations in all conditions. Our helideck safety solutions have been installed at/in more than 2000 locations worldwide.
